

Perfect **SkN** IPL Hair Removal & Skin Rejuvenation

An advanced and versatile system that enables the operator to apply a range of treatments including:

- Hair Removal
- Acne
- Vascular
- Skin Rejuvenation

Why Perfect Skn IPL For You?

- Designed by a Beauty Therapist for Beauty Therapists
- Modern design system in metallic silver
- Easy to move with castors
- Easy to use touch screen
- Expert training provided

Perfect **Skn** IPL Hair Removal

Perfect Skn IPL System emits varied wavelength, broad spectrum and intense pulsed light, which permeates the epidermis into the dermis of the skin and is absorbed by the melanin in the hair follicles. As the light is converted to heat energy, the bulb and most of the hair shaft are instantly vapourized.

Perfect **Skn** Skin Rejuvenation

The intense pulsed light can permeate the epidermis into the dermis and take effect on abnormal pigmented skin. This can break the abnormal pigment cells, close the abnormal blood vessels, stimulate collagen and improve the rearrangement of elastin, finally achieving the purpose of pigment removal and skin rejuvenation. To summarize, this system can be used to treat vascular, acne and skin rejuvenation facials.

Perfect **Skn** IPL Hair Removal & Skin Rejuvenation

specifications		
Light Source	Wavelength - Hair Removal	Wavelength - Skin Rejuvenation
Intense Pulsed Light	690 - 1200nm	560 - 1200nm
