### Why Perfect **SKN** Laser Tattoo Removal System?

- Portable, well designed and compact
- Easy to lift and take from salon to salon
- Easy to use
- Excellent training given
- Great Price!

## Perfect **Skn** Laser Tattoo Removal System

This system provides the answer to unwanted epidermis and dermis pigmentation.

It utilises the explosive effect of the Nd: YAG Laser.

The laser permeates the epidermis into the dermis where the pigment originates from.

The pigment mass absorbs such high energy in nano-seconds and shall swell quickly and break into small pieces which can be eliminated through the metabolic system.
